Growth & GTM operator connecting product, creative and data to build acquisition systems. Experience includes ~300% B2B revenue growth in three months, ~$800K annual media budget responsibility and AI workflows reducing manual prospecting time by ~80%.

EXPERIENCE

Gosvea, Inc. · Growth | Jan 2026 - Present

- Contributed to ~300% B2B revenue growth in three months while owning ICP research, Apollo/Clay prospecting, targeted outreach, HubSpot pipeline management and follow-up improvements.
- Managed Google Ads across Search and YouTube (~$800K annual budget scope), reducing CPC by 30% through keyword optimization, creative testing and conversion-tracking improvements.
- Built an AI-assisted Ads monitoring workflow that reconciles campaign performance with transaction revenue and landing-page behavior; supports approved campaign changes and follow-up reviews.
- Built and open-sourced a Reddit discovery and reply-drafting workflow with human review, reducing manual prospecting time by an estimated 80%.

Canlah.AI · Growth Intern | May 2025 - Sep 2025

- Researched personas, competitors, positioning and B2B/B2C segments for an AI productivity startup; synthesized user and community feedback to inform product and GTM decisions.
- Analyzed regional and cohort performance in R across six markets to identify behavioral differences and inform targeted product and growth experiments.

EY · Core Business Services Intern | Jul 2025 - Aug 2025

- Redesigned financial-services workflows in Visio and Excel to identify operational bottlenecks; built profitability and risk reporting models across business units.

SELECTED WORK

- **Product & distribution:** created the positioning, landing page and demo for Reddit Lead Finder; published Reddit content reaching 10K+ views and 200 upvotes on a single post.
- **Content creation:** Bilibili music video edit with 30K+ plays, Rednote content with 10K+ views and TikTok travel content with 200+ likes; additional nonprofit and WeChat Channels work.
