PRODUCT MARKETING / GROWTH / AI WORKFLOWS

I turn user insight into content and growth.

I connect product understanding, hands-on content creation and data-informed growth. I find the angle, make and distribute the content, then use audience response and product behavior to guide the next iteration.

B2B ACQUISITION / THREE MONTHS

~300% B2B revenue growth.

Owned customer research, prospecting, segmented outreach and HubSpot follow-up during this growth period.

01

ICP & prospecting

Used historical customers to define target segments. Sourced accounts in Apollo and enriched contacts with Clay.

HubSpot · Apollo · Clay

02

Segmented outreach

Matched messages to account needs, handled replies and followed up on active opportunities.

Account research · Email · Follow-up

03

Pipeline & booking

Tracked deal stages, quotes, requirements and next actions through booking and delivery handoff.

CRM · Quotes · Customer coordination

Observed revenue growth across the B2B operation, not isolated attribution to outbound alone.

ADDITIONAL ANALYSIS & SEARCH WORK

Six-market analysis: regional and cohort performance in R, plus personas, competitor research and user-feedback synthesis for an AI productivity product.

SEO / GEO: search-intent and comparison pages, Google Search Console submission and product content structured around user questions.
